Announcement of the
“Principles of the 50”

Throughout the last 50 years of the UAE's history there have been exceptional developmental leaps across all sectors thanks to the wise vision of the founding fathers. The UAE has also implemented a developmental model that has become an inspiration for many countries around the world.

We are now on the cusp of a new stage defined by an accelerating pace of change. The UAE steps confidently towards the future under the leadership of UAE President His Highness Sheikh Mohammed bin Zayed Al Nahyan, His Highness Sheikh Mohammed bin Rashid Al Maktoum, UAE Vice President, Prime Minister, and Ruler of Dubai, and the members of the Federal Supreme Council. The journey of development and growth that was started by the founding fathers, continues and will project the UAE towards becoming the world's leading nation within the next 50 years.

WE THE UAE
2031

TOWARDS NEW PEAKS

'We the UAE 2031' aims to translate the vision of His Highness the President of the UAE for the future of the UAE into a tangible reality. Accordingly, all institutions in the UAE will work to fulfill it, leading to the achievement of the UAE Centennial Plan 2071 and the Principles of the 50.

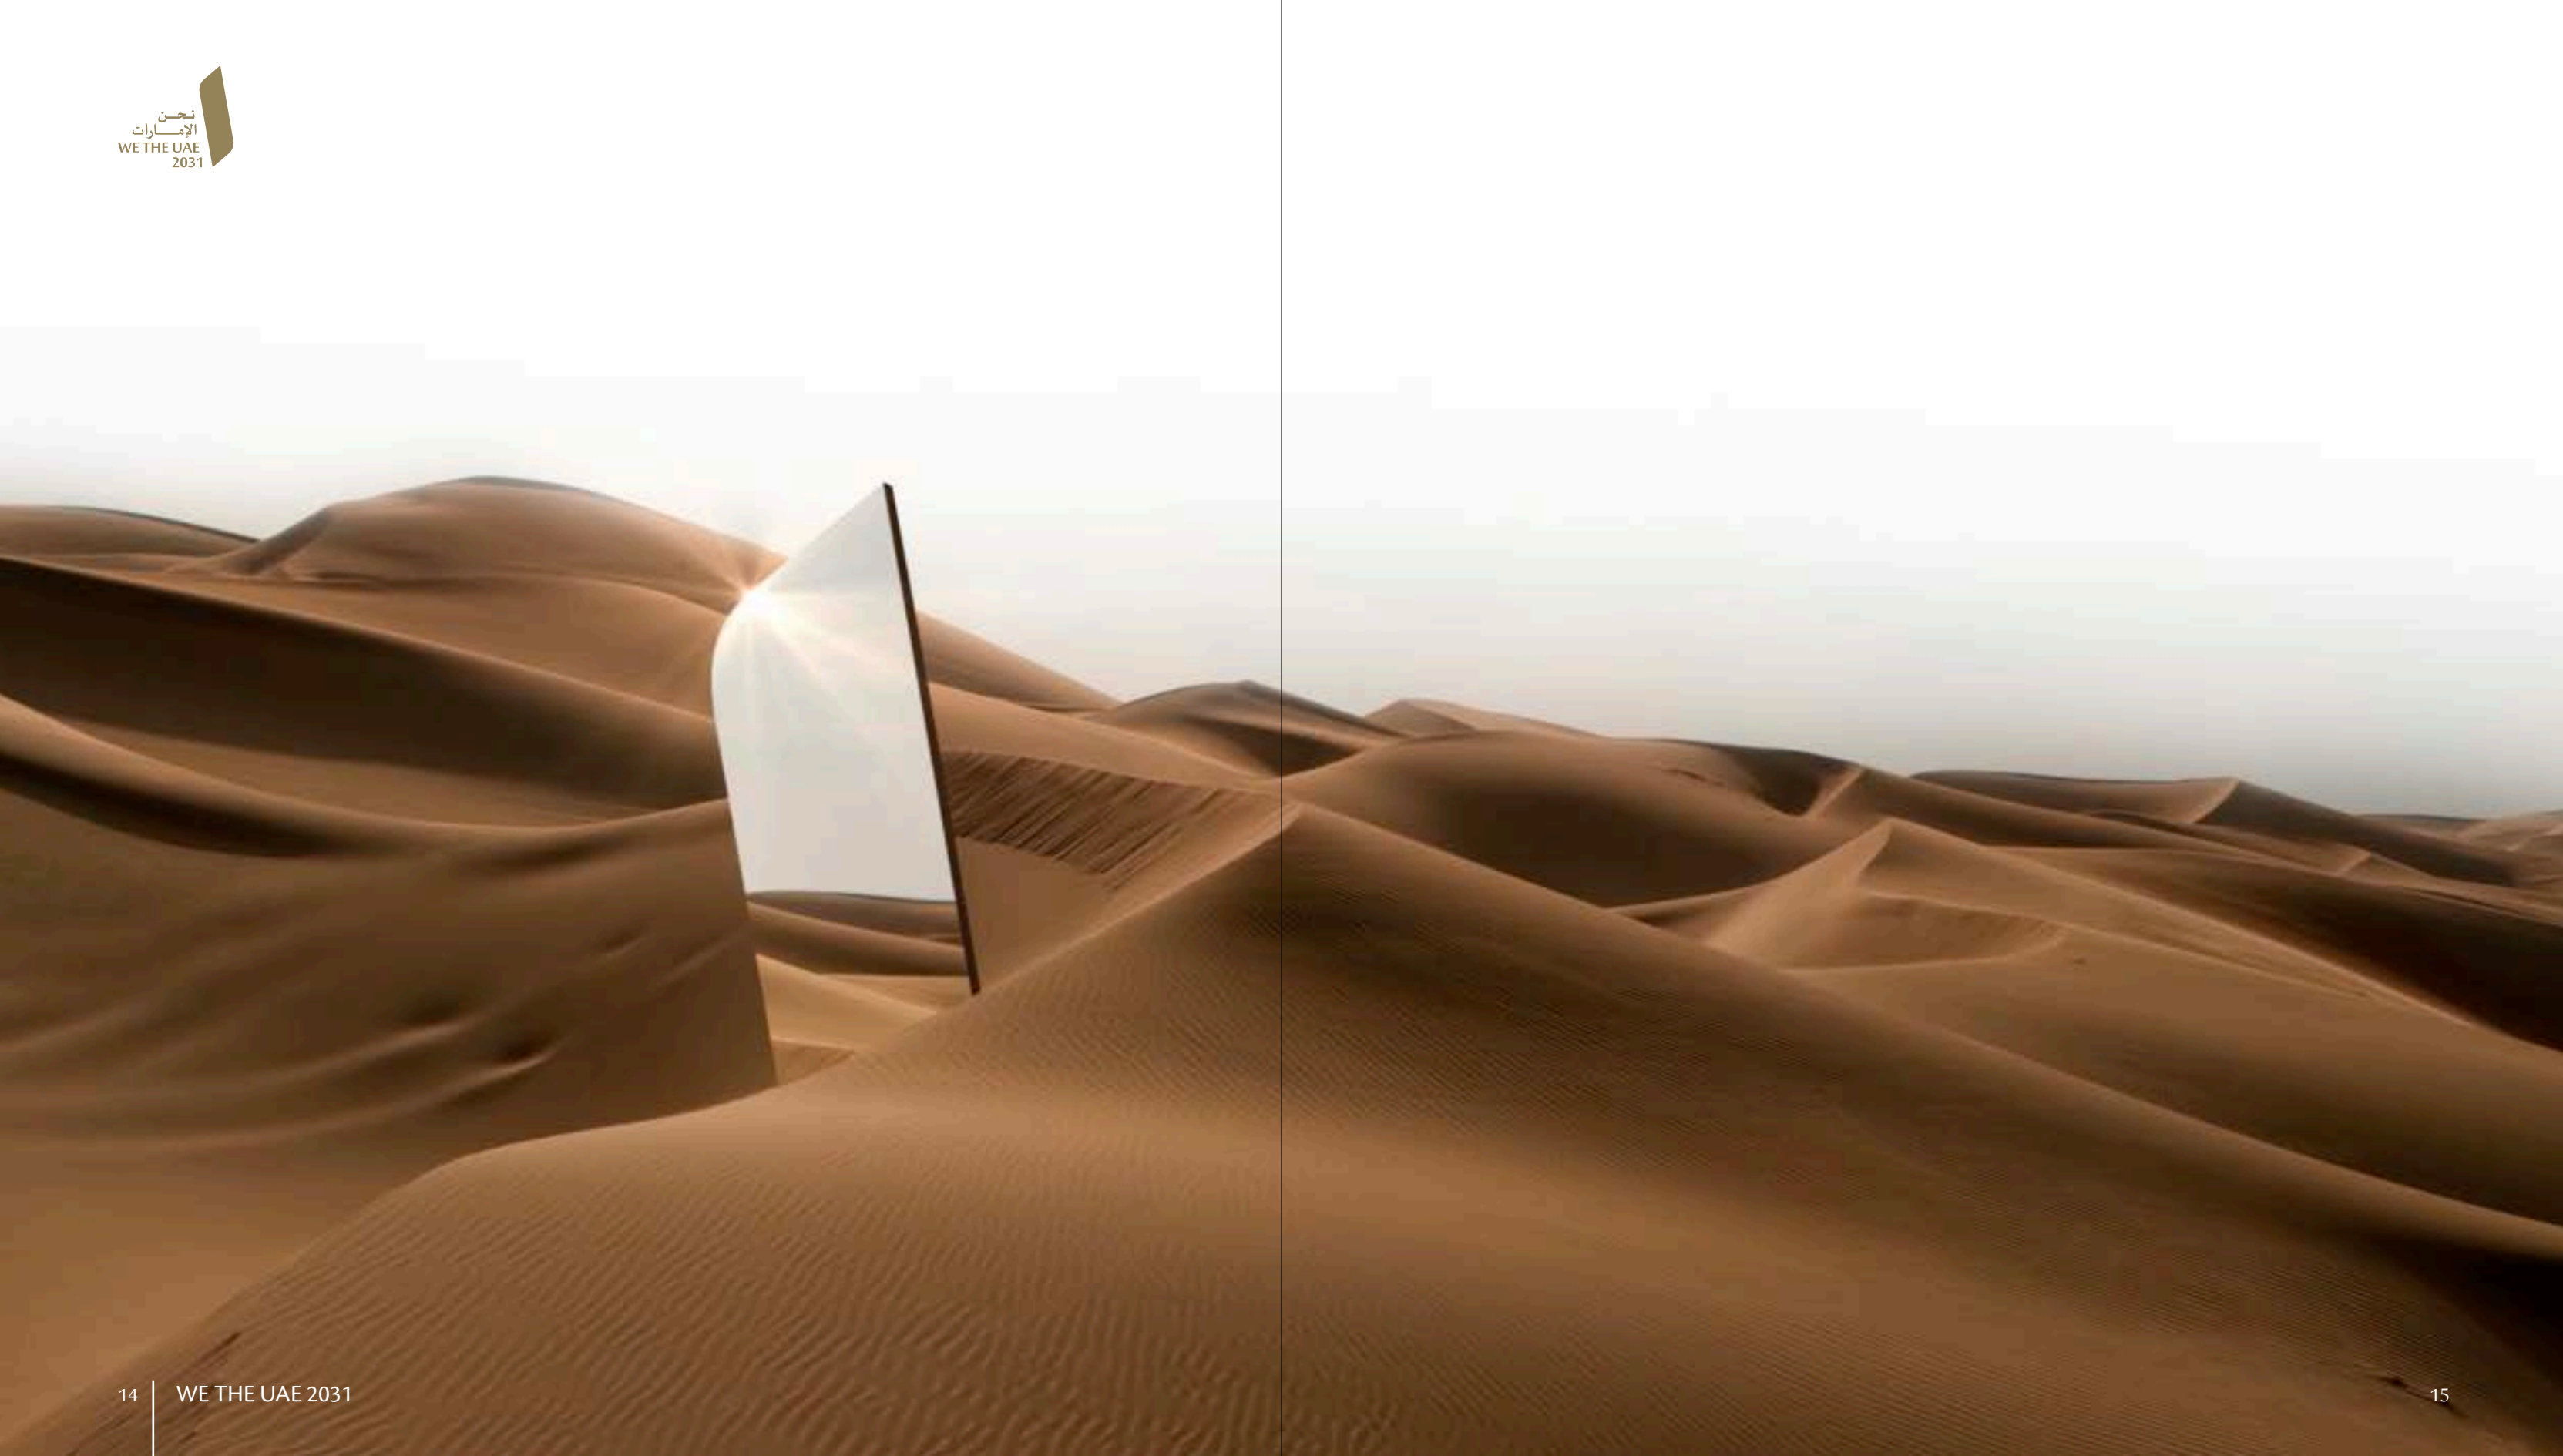

The main areas in this document are divided into four national priorities representing the main sectors of interest, with clear focus areas and measurable targets that will be announced.

Today we have launched the "We The UAE 2031". It represents our government vision for the next decade as we start a national path towards new achievements under the leadership of my brother Mohamed bin Zayed.

His Highness
Sheikh Mohammad Bin Rashid Al Maktoum
UAE Vice President, Prime Minister, Ruler of Dubai

SOCIETY

We the UAE, an advanced and integrated social empowerment model that unleashes the potential of our people, contributes in building the spirit of cohesion, harmony, tolerance and giving. This model is embedded in a society that preserves its cultural heritage, national identity and human values, using an education system that instills moral values and enriches knowledge throughout all life stages, and also using an advanced and integrated healthcare sytem that is available to all with the highest levels of readiness.

A nation, proud of its identity, that supports the prosperity of its citizens

An integrated social system that empowers and unleashes the potential of Emiratis, protects cultural heritage, and instills national identity and human values.

A socially empowering ecosystem that unlocks individual capabilities

A well-preserved national identity, culture and unwavering values

An inclusive and empowering society

A cohesive society that cultivates harmony, tolerance and generosity as key attributes defining the lives of individuals and communities, who are collectively working for the prosperity and advancement of the nation.

Individuals contributing effectively to the Nation's prosperity

Families with strong, long lasting bonds

A diverse society where everyone feels at home

A cutting edge education catering for lifelong learners

An environment that produces pioneering, knowledgeable skilled minds able to design and seize the future, and capable of acquiring best-in-class and up-to-date educational opportunities throughout all life stages

Best first 5 years of education

Personalized education for everyone

Lifelong learning and growth for all generations

An innovative, state-of-the-art healthcare system

An advanced, integrated and accessible healthcare system that focuses on enhancing the quality of life of individuals, supports healthy lifestyles, and enjoys the highest levels of future readiness and quality in specialized care.

High quality healthcare service available to everyone

Future-ready healthcare system

Global destination for specialized care

A nation, proud of its identity, that supports the prosperity of its citizens

A socially empowering ecosystem that unlocks individual capabilities

A socially empowering ecosystem that contributes to the prosperity of individuals, the building of families, and the unleashing of capabilities. This includes ensuring the availability of dignified housing, improving financial stability and providing appropriate job opportunities in economic sectors.

A well-preserved national identity, culture and unwavering values

Preserving the key pillars of the Emirati national identity, in light of the continuously changing environment; for it to remain an authentic identity in its spirit, modern in its development yet able to safeguard the bonds that link all individuals to the Emirati unwavering values.

An inclusive and empowering society

Individuals contributing effectively to the Nation's prosperity

Physically and mentally healthy, active individuals that positively contribute to their communities and the economy.

Families with strong, long lasting bonds

Strong and closely connected families who raise well-rounded, aware individuals, and build the foundation for healthy and interconnected communities.

A diverse society where everyone feels at home

An inclusive and cooperative society, built on the values of tolerance and generosity, that enables individuals to prosper mentally, physically, socially and economically, and strengthens social cohesion through community building activities, cultural events and sports.

A cutting edge education catering for lifelong learners

Best first 5 years of education

Nurturing the skills and behaviors of children in their early years of life through leveraging state-of-the-art research and the best education capabilities to achieve leading national and global education outcomes.

Personalized education for everyone

An agile school and higher education system enabled with the best capabilities and the most advanced education technologies. The system creates an educational experience that caters to every individual, remains up-to-date, and contributes to social and economic development, especially in the areas of science and future skills.

Lifelong learning and growth for all generations

Encourage lifelong learning for all ages and regularly upskill residents helping them capture future opportunities and stay on top of their own life developments.

An innovative, state-of-the-art healthcare system

High quality healthcare service available to everyone

Adopting holistic, integrated and high-quality healthcare models that are accessible to everyone.

Future-ready healthcare system

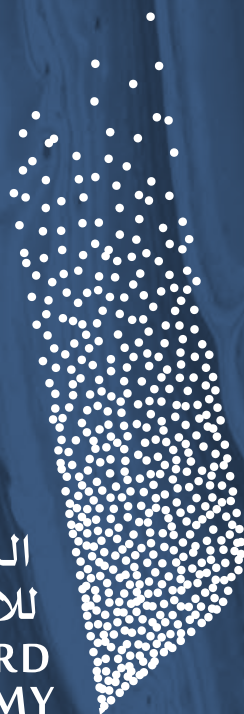

A champion in innovative healthcare technologies, with the aim of ensuring readiness and responsiveness to future challenges, including those related to health security, predictive healthcare, biotechnology and genome sciences, and artificial intelligence.

Global destination for specialized care

A leading center for medical research globally, adopting a pioneering and innovative healthcare model that positions the UAE as a leading healthcare destination and an exporter of specialized medical care.
